About Me

I have 3+ years of experience as a React Developer specifically and 3.5+ years as a Front-End Developer. Coding to me is fun and challenging and the industry itself suits me perfectly with its ever-changing and evolving landscape.

I am constantly learning, an avid podcast listener, book reader and educational video watcher.

I ran a business with my brother from Feb 2021 - Apr 2022 providing black faceplates for the PS5.

Development

- Semantic HTML, CSS & Sass, ES6/7 JavaScript
- React & Redux (w/ Toolkit)
- NextJS
- Gatsby
- TypeScript
- TailwindCSS
- Vercel / Netlify
- Git

Soft Skills

- Critical Thinking & Problem Solving
- Analytical
- Methodical & Logical
- Adaptive
- Fast Learner
- Hard-Working

Education

Chemistry BSc w/ Honours, 2.1, University of Manchester (2016-2019)

I have gained a multitude of transferable skills as a result of my degree: The ability to problem solve efficiently; working within a group to achieve a common goal; the ability to learn new skills, concepts and knowledge within a small timeframe.

Greenshaw High School (2009-2016)

A-levels – Chemistry: A, Mathematics: A, Economics: B

GCSEs – 9 A/A*, 3 above grade C (A/A* including Mathematics, English Literature, Triple Science, IT)

Employment History

Web Developer at Fluid (Aug 2022 – Present)

I am currently working as a Front-End Web Developer in a small team for Lifestyle and Gaming clients. I am in charge of the end-to-end development of projects through multiple phases working alongside a project manager. Some of the clients I have worked with are Team17, Bandai Namco Mobile and Gameloft.

Web Developer at Equator (Jan 2022 – Aug 2022)

Worked as a Front-End Web Developer on a financial services product full-time within a team of around 15. The project comprises of both vanilla JavaScript and React, consuming RESTful APIs. I have also assisted the Project Leaders in improving their processes within the team and Jira.

App Software Developer at AVAMAE (June 2020 – Dec 2021)

Working in an agile environment, I was responsible for the applications of many companies across various industries. I started client projects from scratch, improved upon and added to existing code bases spanning React with Redux, TypeScript and legacy & modern JavaScript. I have experience using APIs such as Twilio and Kraken.

Optimisation Web Developer at WeTeachCRO (Oct 2019 – June 2020)

I was responsible for developing A/B tests on client websites in accordance with their own website design using HTML, CSS, JavaScript, and jQuery. Also, I was responsible for developing in-house applications to streamline the A/B test development.
